Subject: Helmet laws

Hi Leo- want to make sure DOT knows my position on helmet laws - I don't support them and that will have to be factored in as we're asked to give input on federal mandates and their potential effects on budgets. I'm not alone in opposing mandatory helmet usuage, many of my gubenatorial colleagues also oppose, though I'll do all I can to encourage helmet use.

Also, I understand that Menzies may have told Ketchikan folks that we CAN afford another bridge option? He needs to be careful not to be inconsistent with the admin's position on the bridge. Randy and/or Russ can speak to him if he's not clear on our message (that you delivered well in Ketchikan) that the feds aren't going to pay for it and it can't be the state's priority. Do you need me to set something up with Menzies so he understands our position on the enormous DOT needs around the state, thus the danger and unfairness in getting Ketchikan's hopes up again?

Subject: Road to be built

Good tour of Curry Ridge. This alternate route doesnt have the opposition the original route had. As long as we're not cutting off winter motorized access in the area then we need to plug in the $7 million for the road to match the Fed funds and Borough participation and RR assistance.
